

200a 240v MIG/TIG/ARC WELDER SPECIFICATIONS

The MTS210 Digital MIG, DC TIG and MMA welder features a high 35% duty cycle, digital control panel for easy adjustments, 9 memory store facility, MIG wave adjustment for fine control of the welding arc and a 5KG reel capacity

FEATURES & SPECIFICATIONS

- MIG Output 200amp @ 35% duty cycle
160A @ 60%, 130A @100%
- TIG Output 200amp @ 35% duty cycle
160A @ 60%, 130A @100%
- MMA Output 175amp @ 35% duty cycle
130A @ 60%, 100A @100%
- DC TIG operation 10-200 amps via easy LIFT-TIG operation
- MIG operation with wave control 25 - 200Amps, Ideal for automotive work.
- MIG reverse polarity for gasless wire
- MMA operation: 10-175 amps—for up to 4.0mm rods
- Heavy duty metal wire feed drive assembly
- Adjustable MMA arc force - for easy arc starting
- MIG/TIG Post flow 1-10 seconds
- TIG Slope down 0-5 Seconds
- Fuse rating 20A, Insulation Grade F
- Generator Friendly - Generator must be minimum of 6.5KVA and fitted with AVR (auto voltage regulation)
- 9 Memory store programs
- Takes 0.6, 0.8 and 1.0mm wire
- 2T/4T Trigger Operation (trigger latching)
- Industrial quality metal chassis
- L.E.D displays for volts/amps/wire feed speed etc
- Remote foot pedal option - For TIG Mode only
- Cooling fan with thermostatic protection
- Package Includes, R-Tech MTS210 Multi-Process MIG/TIG/MMA Welder, 3M Binzel MB15 MIG Torch (options available), 4M WP26 Air Cooled TIG Torch, Earth Lead, MMA Lead, Gas Hose, Mains Cable, Gas Regulator, Owners Manual, Torch Consumables Kit
- Net weight 22KG Dimensions 560x230x420mm

2 Year Warranty
